

## Britannica ImageQuest™ Wins ISTE “Best of Show” Award

New honour from Tech & Learning magazine recognises top educational technology products

SYDNEY, July 1, 2014—Britannica Digital Learning announced today that Britannica [ImageQuest™](#) is a winner of an ISTE Best of Show Award from Tech & Learning magazine.

The winners were announced yesterday in conjunction with the annual conference of the International Society for Technology in Education (ISTE), currently under way in Atlanta. The competition was open to developers of educational-technology products attending the conference. This was first time the awards were given.

“Selected Tech & Learning advisors scoured the show floor on the first day of ISTE, investigating the latest and greatest announcements from the participating vendors,” the magazine’s announcement said.

Britannica’s [ImageQuest](#) resource for schools and libraries provides nearly three million rights-cleared photos and other images for homework, classroom activities and lesson plans. Images come from more than 50 of the best collections in the world, including the Bridgeman Art Gallery, Dorling Kindersley Images, Getty Images, the National Geographic Society and Encyclopaedia Britannica.

ImageQuest has been praised by educators and reviewers, and a newly released version of the product includes a host of features that make finding and working with images easier and more efficient.

Free trials for Britannica School are available to schools and consortiums. Interested educators can call (+61 2) 9915-8800 or [bol@eb.com.au](mailto:bol@eb.com.au) for more information.

## **About Britannica Digital Learning**

[Britannica Digital Learning](#) (BDL) provides reliable, high-quality classroom products and solutions for educators. BDL experts produce curriculum-aligned resources for all ages from preschool to high school that make creative and purposeful use of technologies widely used in schools today—such as interactive whiteboards, tablets, smart phones and learner-response devices—making it easier for teachers to teach and for students to learn. Products include Britannica School, Pathways: Science, ImageQuest™, SmartMaths and Britannica eBooks. BDL is a division of Encyclopaedia Britannica, Inc. and maintains offices in Chicago, Sydney, London, New Delhi, Paris, Seoul and Tokyo.
